PROFILE SUMMARY

Hardworking and trustworthy java developer skilled in creating reliable systems. Focused on solving problems and building applications. Strong team player with practical experience in development & testing.

EXPERIENCE

Orbisys Technologies, Noida

Java Developer | May 2025 - Present

► *Project: EdTech*

Overview:

- A large-scale EdTech platform designed to make learning more engaging and accessible. It allows learners to take tests, track progress, and receive feedback, while enabling organizations and companies to create, assign, and analyze assessments at scale.

Contributions:

- Built the backend application from scratch for a large-scale learning and assessment platform, enabling both learners and organizations to interact seamlessly.
- Developed major modules including user management, question management, test creation, result analytics, role-based access control, and bulk operations (Excel-based uploads).
- Enabled learners to take tests and track their progress, while allowing organizations and companies to upload questions, build assessments, assign them to bulk users, and analyze outcomes effectively.
- Gained hands-on experience in backend development, database integration, while working on end-to-end product development.
- **Tech:** Java Spring Boot, Google Firestore Database, ReactJs, Gradle, Git & GitHub.

► *Project: Marketing-Mailers*

Overview:

- A marketing automation platform designed to streamline email communication, including promotional campaigns and notifications with customizable templates, scheduling, and analytics.

Contributions:

- Developed a Spring Boot application to automate the sending of personalized marketing emails, including promotional campaigns and notifications.
- Implemented customizable templates (plain text and HTML) with dynamic content capabilities to deliver personalized communication.
- Automated email scheduling using event-driven triggers, ensuring timely and consistent delivery without manual effort.
- **Tech:** Java Spring Boot, JavaMailSender, Thymeleaf, Google Firestore, Gradle, Git & Github.

EDUCATION

Dewan VS Institute of Engineering and Technology
B.Tech in Computer Science | 2021-2025

S.S.S Inter College Rasna, Meerut
Higher Secondary Education | 2018-2021

TECHNICAL SKILLS

- **Language:** Java
- **Frameworks:** Spring Boot (REST API, Spring Security, Hibernate)
- **Database:** MySQL, Google Firestore.
- **Web Technologies:** HTML, CSS (Responsive Design), Bootstrap.
- **Version Control:** Git & GitHub.
- **Operating Systems:** Linux (Bash Scripting, CLI etc).
